Dear Business Partner,

We are very excited about an idea that is a Win Win situation for both of us. We are introducing Q Computers Partner Employee Benefit Program. For our corporate partners we are extending our retail and computer contract services to the employees also. Q computers is a full line computer hardware and service company with instore and onsite business and residential offerings. We would like to extend the same professional level of service to your employees that your company deserves. This program allows your company to extend a new type of benefit to your employees with absolutely no cost to you. It can even save your company money by qualifying you and your employees for higher tiers of services. Great deals on new computers, monitors, and accessories. Special Onsite services at instore prices including repairs, networking and training.
